Goal Of The Workshop

To answer the following questions:

- Who are our stakeholders?
- Are there coalitions affecting our program?
- What is their power over our program?
- What are our responsibilities toward the stakeholders?
- What is our communications strategy toward our stakeholders? Is there potential for a threat to the organization or potential for cooperation? Is the strategy for communication to stakeholders to collaborate, involve, defend or monitor?
The Overall Process:

1. Issues identification
2. Issues analysis
3. Issues ranking
4. Issues response
5. Issues implementation
6. Issues evaluation
Results from Previous Workshops

- Workshop offers value - stakeholder information before development of strategic plan
- Timing is critical - integrated early in the strategic planning process
- Mapping system valuable - requires education
- Stakeholder Audit will require facilitation time in the workshop to resolve different perspectives and determine “the one voice” for the stakeholders
Objectives of the Workshop

• Identify stakeholder issues with six modules.
• Each module will include learning materials, tools and current research that we can take back to our organization.
Pre-Workshop Questionnaire

- What is your definition of a stakeholder?
- Who are your internal stakeholders? What kind of stakeholder are they for your organization (primary or secondary)? How would you like to communicate with them?
- Who are your external stakeholders? What kind of stakeholder are they for your organization (primary or secondary)? How would you like to communicate with them?

Module 1 – Who Are Our Stakeholders?

Process

• This module will answer the following questions:
  – Who are our current stakeholders?
  – Internal stakeholders? External stakeholders?
  – Are they primary (ultimately affected by the organization) or secondary stakeholders (intermediaries that support the organization’s mission and goals)?
  – Are stakeholders at subsidiaries different from the stakeholders for the main organization?
  – Who are our potential stakeholders (stakeseekers)?
Module 1 – Who Are Our Stakeholders?

Learning Materials – Stakeholder Map

- For each circle, add secondary circles with names or groups and note if internal or external stakeholders
- How would you draw a circle(s) for subsidiaries? Are they separate stakeholder maps or can they be included in the main organization’s stakeholder map?
- Note next to each stakeholder code a “P” for Primary Stakeholder or a “S” for Secondary Stakeholder
- After each “P” or “S” code each secondary circle with an “a”, “b”, “c”, etc.

Module 2 - What Are The Stakeholder Coalitions?

Process

Stakeholder coalitions can have a positive or negative effect on the organization. The reason why we want to determine the nature of the stakeholder interests and any coalitions they have developed is to determine what kind of power they have, positive or negative, and if the bank should pay attention to them. If the organization can pay attention to the coalitions, then it can develop a plan to deal with the issues that the stakeholders have currently and in the future.

Module 3 - What Is The Nature Of Stakeholder Interests?

Goal: to determine the nature of each stockholder interest and its affect
Module 3 - What Is The Nature Of Stakeholder Interests?

Theoretical Explanation – some quotes to consider.......
Module 3 - What Is The Nature Of Stakeholder Interests?

Process

We are going to perform an audit of each stakeholder’s interest in the bank. In this audit, we are going to sort each stakeholder as to which it is **active**, **inactive** or **potentially active** and if it is for (+) or against (-) the mission and goals of the bank. We are then going to set questions or edit a series of questions auditing the actions of each stakeholder, their belief system, cooperative potential and stakes. The goal with this module is for the team to have a more objective picture of the stakeholders, the overall situation the bank is facing, the players, and the bank’s potential and actual role in the situation.
Module 4 – What Is The Power Our Stakeholders Have Over Us?
